

Saab 99 and 900: The Complete Story

The first car that Saab made - the 92 model - set the standard for advanced design that would eventually be epitomized by the 99 and 900 cars. Lance Cole takes an in-depth look into the cars design and history, and into the values that Saab carries into production. Included are year-by-year developments, technically detailed engineering overviews, specifications, advice on owning and buying, and coverage of rallying and special models.
