

Finding Her

Renee Jackson has everything a young woman could want—a top-notch education, a luxury condominium and a fantastic career. Since the day she was born, things have always gone her way. Her latest professional triumph, being the first black woman promoted to senior executive in her company and exponentially faster than any of her peers, has Renee feeling like she is on top of the world. The minor annoyances in Renee's life—including an endless stream of parking tickets, a galling boss, and a homeless woman who begs outside her office building every day—are not even worth Renee's attention when compared to her skyrocketing career. Then something astonishing happens and Renee finds herself clinging to a mysterious plea from the homeless woman: find her. The unusual request sends Renee on an unexpected pursuit full of adventure and astonishing truths. As she gathers pieces of the puzzle to honor her promise, Renee is stunned by the final picture that is created. Join Renee as she goes on a journey trying to find her.
