

Coming Here, Being Here: A Canadian Migration Anthology (Essential Anthologies)

This migration anthology is an entertaining miscellany of factual stories, essays, newspaper reportage, and even a poem, all of which highlight the humour, as well as the ironies and agonies generated when humans seek a new homeland. The authors, and their stories, are as diverse as our Canadian population itself, and help to tell who we all are within this amazing, tolerant, nurturing geographic space called Canada. All migrants have stories, but not all are writers, so although most authors here are academics and/or widely published, the voices of others are well represented.
