

Lost and Found a Novel

Lost and Found is an inspiring story of a mother's love and resilience to fight the fight worth fighting. After a three-month relationship that went from bad to worse, Olivia Thompson struggles with being a single mother at the age of forty and the guilt it brings, not to mention that she's lost her bearings when she learns the father of her child harbors secrets. When Olivia finds herself in a fierce court battle she meets with an attorney and finds love in the process. Lost and Found spans nineteen months, three cities, a pregnancy, and a birth, and now with a baby in tow, the horrific lies begin to unravel, but the court system doesn't seem to want to take a stand. Rather than get caught up in the exhausting dysfunction and her ex's attempt to kill her, Olivia seeks the help of a counselor who empowers her to find herself and her faith that was once lost to stand strong.
