

MERCEDES-BENZ, The 1950s, Volume 1: W136, W187, W186, W188, W189

The 300 Adenauer was the first Mercedes luxury car after WWII. The 170 and 220 series earned the company the money to develop newer models and the 300S continued in the tradition of the pre-war compressor cars. This reference book gives a complete overview of the history of the 170V, 170S, 220, 300 and 300S with all their variations and coach-built versions. A second volume continues with the ponton cars, the 300SL and 190SL. Richly illustrated with recent, non-Daimler AG sourced color photography, this guide explains the cars features and how to experience them. It continues with full technical details and the annual production history of each model. If you want to know more about the remarkable Mercedes cars of the early 1950s, then this book is for you. **FREE BONUS:**When you have bought this book, you are eligible for a free pdf file of any Mercedes model (such as W111 or W198 or R107 for example) the author has covered in one of his books. Please contact the author through his website (inside the book) and stipulate, which free pdf file you want him to send to you.
