

You The Buddha: Freedom At The End Of Your World (A Book On Spiritual Enlightenment)

****Insert Catchy Headline Here**** So, here you are. Youve finally arrived at the part of your story where youre ready to listen to yourself. And guess whose words youre reading right now? Thats right! Yours. No, not literally, and yes, literally. No in the sense that your hand was not responsible for typing out these letters, yes in the sense that all of life is interconnected and is a reflection of your inner state of being. I could say that you created this book unconsciously in your sleep, but I think that would be too much of a mind game, dont you think? Of course you do, youre me! :) Its enough to say that the time has arrived for you to stop wondering what your life is all about and start being the Buddha that you are. Enough of this oh I wish I had answers or why does it have to be so hard crap. Thats not freedom, so why go there anymore? Im not talking about denial, Im talking about inheriting your kingdom - the one youve been ignoring all of these years while youve been out searching for it. Of course, inheriting this kingdom and gaining access to all of the inner wisdom youll ever need is going to take a bit of work. After all, you have a knack for looking the other way. Not to worry though, I enjoy a good challenge. Come join me for the ride, itll be one hell of an adventure. Dont have a Kindle?
