

Prescription for Murder

Jill is a struggling professional female in a cynical male dominated world. As a criminal investigator for Lubbock District Attorneys Office, she has found refuge in her work and devoted to finding the truth. Jill comes from a family of law enforcement, sadly losing her father at the hand of a criminal. She has learned to use his death to become strong and build from her fears. Jill falls for an older, successful pharmacist and begins to let down the wall she has built to keep from being hurt, only to find that she has set herself up for heartache. She is forced to end destructive behavior by doing the very acts she despises. In the end she is reminded just how strong she is and that she will heal from anything.
