

Platos Dialogues One by One: A Dialogical Interpretation

Platos Dialogues One by One interprets and contextualizes each of Platos dialogues. Victorino Tejera analyzes and explains the content and intellectual quality of the dialogues, highlighting their dramatic aliveness and historico-political allusiveness. He treats each dialogue according to its own integrity, not imposing any system outside of their individual composition, and with an even-handedness that does not place too much emphasis on any aspect or neglect any included concept. With this approach, Tejera seeks to free Plato from the constraints constructed by Academia and to treat him as the open-minded intellectual son of Socrates, releasing the free-flying swan that in the myth became the home of the soul of the master.
