

## Romane Memento: Vergil in the Fourth Century

This new collection of essays, commissioned from a range of scholars across the world, takes as its theme the reception of Rome's greatest poet in a time of profound cultural change. Amid the rise of Christianity, the changing status of the city of Rome, and the emergence of new governing classes, Vergil remained a bedrock of Roman education and identity. This volume considers the different ways in which Vergil was read, understood and appropriated; by poets, commentators, Church fathers, orators and historians. The introduction outlines the cultural and historical contexts. Twelve chapters dedicated to individual writers or genres, and the contributors make use of a wide range of approaches from contemporary reception theory. An epilogue concludes the volume. *Romane Memento* will be of interest to literary critics and cultural historians of Late Antiquity, but also to Vergilianists unfamiliar with the literature of the fourth century.
