

## The New Perspective on Paul: Collected Essays (Wissenschaftliche Untersuchungen Zum Neuen Testament)

The collection of essays highlights a dimension of Paul's theology of justification which has been rather neglected: that his teaching emerged as an integral part of his understanding of his commission to preach the gospel to non-Jews; and that his dismissal of justification by works of the law was directed not so much against Jewish legalism but rather against his fellow Jews' assumption that the law remained a dividing wall separating Christian Jews from Christian gentiles. The long opening essay interacts with critiques of this new perspective on Paul and seeks to carry forward the debate on Jewish soteriology, on the relation of justification by faith to judgment according to works, on Christian fulfillment of the law, and on the crucial role of Christ, his death and resurrection.
