

Poems by Me! Book 2: The sustained release version

This fascinating original work expands from the first book and delves deeper into the authors creative prowess. The typos continue in this second book and add rich meaning to content and style. The book pierces through hype, trepidation, and mores and squares off with real life issues. Through a style of urban humor, anger, and a bit of sorrow, the author weighs in on an array of social norms and ills. A primer by this author on this book and book one is available. It provides useful information about both books, their creative processes, and a bit about the author. Even the typos in books 1 and 2 serve a purpose and have meaning!
