

The Silent Angel

Condemned to sail the Seven Seas in search of his lost love... John Tempest is a Navy man; a true man of the sea. It is his passion, his life - but all of that is due to change the day that the Admiralty passes him over for a Captaincy. This disappointment, twinned with the chance meeting with an old friend, Chris Lake, leads unexpectedly down a path of piracy. Following the tragic death of Captain Lake, not only does Tempest assume captaincy of The Good Fortune, a pirate ship of some note, but he also finds love... with Lady Amanda Scott. Newly single following the tragic death of her husband, Belinda Parker and her daughter, Katie, also had simple lives living on the beach. An old ship wreck in the sand lights the flame for pirate stories for Katie, whilst a neighbours almost deserted, grand house on the cliff top stirs unfamiliar, yet powerful dreams for Belinda. Back on the seas, Captain Tempest suffers the loss of the love of his life and suffers a mad moment that results in the watery grave of The Good Fortune and all of the good men on her decks... including Tempest himself. But Tempest is to be punished for his error - condemned to remain a lost soul, a ghost, hes doomed to sail the Seven Seas, night after night, until hes found forgiveness and his lost love. He knows shes out there somewhere, and then he meets Belinda... Might she be his lost love, the only one who can save him now? Or will she be snatched from him again?
