

WTB_Mark: A Living and Active Stage Adaptation of Marks Gospel

WTB_Mark is a ground-breaking stage adaptation of Marks Gospel in two Acts, based on Steve Cooks audio recording, Witness The Bible: Mark. It contains a cinematic underscore of music and sound effects, over which the action is meticulously timed out. The result is a powerful activation of Scripture. It is prop-less with a very simple set and costumes and runs about 90 minutes with one intermission. It is designed to replicate what Bible study must have been like in the 1st Century Church, when most believers were illiterate.
